

# SHASHINI BHAGYA WIJAYAMUNI

Software Engineer Intern

+94 70 318 1730 | shashinibhagya065@gmail.com | Moratuwa, Sri Lanka

GitHub | LinkedIn | Medium

## PROFILE

3rd-year IT undergraduate at the University of Moratuwa with hands-on experience in full-stack software development and building web applications. Proficient in React.js, Next.js, TypeScript, Java, Spring Boot, and modern web technologies, with proven ability to build scalable applications from design to deployment. Strong foundation in RESTful APIs, database management, cloud technologies, Agile methodologies, and Git/GitHub for collaborative development. Experienced in developing responsive frontend applications, secure backend services and AI-powered solutions. Seeking a Software Engineering Internship to apply my technical skills, gain industry experience, and contribute to impactful software solutions.

## TECHNICAL SKILLS

- Languages:** Java, JavaScript, TypeScript, C, Python, PHP
- Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, shadcn/ui
- Backend & Database:** Spring Boot, FastAPI, RESTful APIs, PostgreSQL, MySQL, Microsoft SQL Server, MongoDB
- AI & Cloud:** Google Gemini, Amazon Polly, AWS Lambda, Amazon S3
- Document Processing:** Tesseract OCR, Tesseract.js, PDF.js, Apache PDFBox, pdf-lib
- Tools & Practices:** Git, GitHub, Agile, Postman, Figma, Clickup, Docker
- Core CS Concepts:** Data Structures & Algorithms, OOP Design
- Testing:** Manual Testing, Test Case Design

## PROJECTS

**01. Universal Document Management System for ERP Integration** *Group / Aug 2026*  
Developed a secure web-based DMS integrated with ERP environments for document storage, search, lifecycle management, approval workflows, collaboration, OCR processing, and access control. Collaborated with a 5-member Agile team to develop the system for University of Moratuwa with Informatics.

### Key Contributions:

- Developed approval workflow and task management, including workflow inbox and approval tracking
- Implemented secure document sharing with tokenized links, permissions, expiry, password protection, and revocation
- Implemented pessimistic editing locks with automatic timeout to prevent conflicting edits
- Developed PDF annotation and collaboration with page-anchored comments and Apache PDFBox

**Tech:** React, TypeScript, Java 21, Spring Boot, PostgreSQL, AWS S3, Apache PDFBox, Tesseract.js, REST APIs, Git/GitHub  
**Repository:** [Frontend](#) | [Backend](#)

**02. Voice Vault – Study Platform** *Individual / Sep 2026*

- Developed an AI-powered study platform that transforms study materials into structured study notes, conversational learning scripts, and natural-sounding audio, with support for PDF, TXT, PNG, and JPG files and OCR-based content extraction for scanned documents and images
- Integrated Google Gemini to generate student-friendly study notes and Amazon Polly to convert learning scripts into natural-sounding audio
- Integrated AWS Lambda, Amazon S3, and PostgreSQL for asynchronous document processing and secure storage
- Implemented secure JWT and Google Sign-In authentication, personal note management, and user-specific audio libraries

**Tech:** Next.js, React, Tailwind CSS, TypeScript, FastAPI, Python, PostgreSQL, Google Gemini, Amazon Polly, AWS Lambda, Amazon S3, Tesseract OCR, Docker  
**Repository:** [GitHub](#)

### 03. Personal Portfolio

Individual / Sep 2026

- Built a scalable Next.js portfolio using reusable React components and TypeScript, featuring responsive layouts, dark/light theming, smooth scrolling, active-section navigation, animations, project filtering, and dynamic project/skills data
- Integrated Web3Forms for API-based contact submissions with client-side validation, clipboard-based email sharing, and Vercel deployment with GitHub integration

**Tech:** Next.js, React, TypeScript, Tailwind CSS, Web3Forms, Git, GitHub, Vercel

**Repository:** [GitHub](#) | **Live Demo:** [Portfolio Website](#)

### 04. To Do Web Application

Group / Dec 2025

Developed a full-stack task management web application for securely creating, managing, and tracking tasks with due dates, status management, Today view, and reminders.

#### Key Contributions:

- Developed the Today page with weekly date navigation, due-date based task display, and task progress tracking.
- Implemented the Reminders feature to display upcoming tasks and their due dates for better task management.
- Developed responsive task management interfaces and integrated frontend components with backend REST APIs.

**Tech:** Next.js, React.js, TypeScript, Java, Spring Boot, PostgreSQL, Tailwind CSS, Zustand, REST APIs, Git/GitHub

**Repository:** [GitHub](#)

### 05. QuickFix Hub - Home Services Booking Platform

Group / Jun 2025

- Implemented customer and administrator role-based access with secure session-based authentication, including separate access and functionality for different user roles
- Developed the admin dashboard with complete CRUD functionality for managing users, services, bookings, customer reviews, and contact messages, along with reporting features
- Developed service browsing, appointment booking, and booking management features for customers, and integrated the application with MySQL using PDO for secure and structured database operations

**Tech:** PHP, MySQL, PDO, HTML, CSS, JavaScript, Apache/XAMPP, Git/GitHub

**Repository:** [GitHub](#)

### 06. Automatic Cloth Steaming and Folding Machine – Hardware Project

Group / Aug 2025

Developed an automated garment care system combining steaming and folding mechanisms using motors, sensors, a conveyor system, and Arduino-based control.

#### Key Contributions:

- Assembled the conveyor belt mechanism and mounted and wired the gear motor for automated cloth movement.
- Connected and configured the L298N motor driver for controlling the conveyor gear motor.
- Mounted, wired, and positioned IR sensors on the frame for accurate cloth detection.

**Tech:** Arduino Mega, Servo Motors, Gear Motors, Sensors, Load Cell, Solenoid Valve, Heating Coil, Embedded C

**Repository:** [GitHub](#) | **Demo:** [LinkedIn Project Showcase](#)

## CERTIFICATIONS

---

- **AWS Cloud Practitioner Essentials** | AWS Training & Certification | July 2026
- **Docker Foundations Professional Certificate** | LinkedIn Learning & Docker | Sep 2026
- **Python Essential Training** | LinkedIn Learning | Sep 2026

## LEADERSHIP & EXTRACURRICULAR ACTIVITIES

---

- **Member - Finance Committee**  
Hiking Club of University of Moratuwa | 2026
- **Member - Life in Balance Research Project**  
Leo Club of University of Moratuwa | 2025
- **Committee Member - Gamers' Arena 2025**  
University of Moratuwa | 2025

## REFEREES

---

**Dr. Saminda Premaratne**

Senior Lecturer

Faculty of Information Technology

University of Moratuwa
