

SHASHINI BHAGYA WIJAYAMUNI

Software Engineer Intern

+94 70 318 1730 | shashinibhagya065@gmail.com | Moratuwa, Sri Lanka

GitHub | LinkedIn | Medium

PROFILE

3rd-year IT undergraduate at the University of Moratuwa with hands-on experience in full-stack software development and building web applications. Proficient in React.js, Next.js, TypeScript, Java, Spring Boot, and modern web technologies, with proven ability to build scalable applications from design to deployment. Strong foundation in RESTful APIs, database management, Agile methodologies, and Git/GitHub for collaborative development. Experienced in developing responsive frontend applications and secure backend services. Seeking for a Software Engineering Internship to apply my technical skills, gain industry experience, and contribute to impactful software solutions.

EDUCATION

BSc (Hons) in Information Technology Faculty of Information Technology, University of Moratuwa CGPA: 3.38/4.00 (Up to L2S1)	2024 – Present
G.C.E Advanced Level Sivali Central College, Ratnapura Physical Science Stream (2022/2023): AAC Z-Score-1.5579	2019 – 2021

TECHNICAL SKILLS

- Languages:** Java, JavaScript, TypeScript, C, Python, PHP
- Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, shadcn/ui
- Backend & Database:** Spring Boot, RESTful APIs, PostgreSQL, MySQL, Microsoft SQL Server, MongoDB
- Mobile & Embedded:** Arduino, Embedded C
- Tools & Practices:** Git, GitHub, Agile, Postman, Figma, Clickup
- Core CS Concepts:** Data Structures & Algorithms, OOP Design
- Testing:** Manual Testing, Test Case Design
- Document Processing:** Tesseract.js, PDF.js, Apache PDFBox, pdf-lib

PROJECTS

01.Universal Document Management System for ERP Integration *Group / August 2026*
Developed a secure web-based Universal Document Management System (DMS) integrated with ERP environments to centralize document storage and organization, metadata-based search, document lifecycle and version management, approval workflows, secure collaboration, OCR-based processing, role-based access control, audit logging, and ERP integration. Collaborated with a 5-member Agile team to develop the system for University of Moratuwa with Informatics.

Key Contributions:

- Developed approval workflow and task management, including workflow inbox and approval tracking
- Implemented secure document sharing with tokenized links, permissions, expiry, password protection, and revocation
- Implemented pessimistic editing locks with automatic timeout to prevent conflicting edits
- Developed PDF annotation and collaboration with page-anchored comments and Apache PDFBox

Tech: React, TypeScript, Java 21, Spring Boot, PostgreSQL, AWS S3, Apache PDFBox, Tesseract.js, REST APIs, Git/GitHub
Repository: [Frontend](#) | [Backend](#)

02.ToDo Web Application *Group / December 2025*
Developed a full-stack task management web application that allows users to securely create, manage, and track personal tasks. The application provides task status management, due-date tracking, a dedicated Today view, and reminders through a responsive web interface.

Key Contributions:

- Developed the Today page with weekly date navigation, due-date based task display, and task progress tracking.
- Implemented the Reminders feature to display upcoming tasks and their due dates for better task management.
- Developed responsive task management interfaces and integrated frontend components with backend REST APIs.

Tech: Next.js, React.js, TypeScript, Java, Spring Boot, PostgreSQL, Tailwind CSS, Zustand, REST APIs, Git/GitHub
Repository: [GitHub](#)

03.QuickFix Hub - Home Services Booking Platform

Group / June 2025

Developed a full-stack web application that allows customers to browse available home services, schedule appointments, and manage their bookings, while providing administrators with centralized system management capabilities.

Key Contributions:

- Implemented customer and administrator role-based access with secure session-based authentication
- Developed an admin dashboard for managing users, services, bookings, customer reviews, and contact messages
- Implemented complete CRUD functionality for managing core system data and reporting features
- Developed service browsing, appointment booking, and booking management features for customers
- Integrated the application with a MySQL database using PDO for secure and structured data operations

Tech: PHP, MySQL, PDO, HTML, CSS, JavaScript, Apache/XAMPP, Git/GitHub

Repository: [GitHub](#)

04. Automatic Cloth Steaming and Folding Machine – Hardware Project

Group / August 2025

Developed an automated garment care system that combines steaming and folding mechanisms to automate the clothing preparation process. The system integrates motors, sensors, a conveyor mechanism, and an Arduino-based control system for automated operation.

Key Contributions:

- Assembled the conveyor belt mechanism and mounted and wired the gear motor for automated cloth movement.
- Connected and configured the L298N motor driver for controlling the conveyor gear motor.
- Mounted, wired, and positioned IR sensors on the frame for accurate cloth detection.

Tech: Arduino Mega, Servo Motors, Gear Motors, Sensors, Load Cell, Solenoid Valve, Heating Coil, Embedded C

Demo: [LinkedIn Project Showcase](#)

CERTIFICATIONS

- **AWS Cloud Practitioner Essentials** | July 2026
AWS Training & Certification
- **Centre for Open & Distance Learning (CODL) | Web Design for Beginners** | 2024
Department of Computer Science & Engineering, Faculty of Engineering, University of Moratuwa
- **Centre for Open & Distance Learning (CODL) | Python for Beginners** | 2024
Department of Computer Science & Engineering, Faculty of Engineering, University of Moratuwa

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **Member - Finance Committee**
Hiking Club of University of Moratuwa | 2026
Participated in financial planning, event coordination, and club activities while developing teamwork, communication, and organizational skills.
- **Member - Life in Balance Research Project**
Leo Club of University of Moratuwa | 2025
Contributed to community health screening and data collection activities focused on examining the relationship between BMI and diabetes.
- **Committee Member - Gamers' Arena 2025**
University of Moratuwa | 2025
Contributed to event coordination and on-site operations while collaborating with technical and logistics teams to ensure smooth event execution.

INTERPERSONAL SKILLS

- Teamwork and collaboration
- Analytical problem-solving and debugging skills
- Effective communication and time management
- Adaptability and continuous self-learning mindset
